DATA PROCESSING OPERATION: SUSNANOFAB EVENTS REGISTRATION DATABASE

1. Introduction

The SUSNANOFAB Project has received funding from the European Union's Horizon 2020 Research and Innovation Programme under Grant Agreement n° 882506. The SUSNANOFAB Project aims to work on all nanofabrication technological and non-technological issues of the nanofabrication value chain, facilitating interactions among stakeholders. The global target of SUSNANOFAB project is to put in place an integrated concerted action on nanofabrication sustainable in the long term. At strategic level the project will find a common strategy to enable all pre-competitive conditions for successful market uptake of nanofabricated products and solutions. This will be reached using a structured road mapping methodology and involving external experts in Coordination Groups. At operational and end-users' level, the project will provide affordable services and easy access point to infrastructures and knowledge to EU stakeholders, and in particular to SMEs. This will be reached using different integrated methodologies such as the organisation of a large set of training and brokerage workshops and services and the development of a Digital Platform, which will perform in an interoperable manner with ongoing platforms and initiatives.

The SUSNANOFAB Consortium is composed by the following partners:

1. RINA CONSULTING SPA (RINA-C), the Coordinator
2. INTERNATIONAL IBERIAN NANOTECHNOLOGY LABORATORY (INL),
